11 Food Temperature Control

11A Proper cooling methods used; adequate equipment for temperature control	OUT
11A Violation Options	Cooling Methos

Georgia Food Safety Training

Violation of GA State Food Code 511-6-1.04(6) (e) Cooling Methods. 1. Cooling shall be accomplished in accordance with the time and temperature criteria specified under DPH Rule 511-6-1-.04(6)(d) by using one or more of the following methods depending on the type of food being cooled: (i) Placing the food in shallow pans; Pf (ii) Separating the food into smaller or thinner portions; Pf (iii) Using rapid cooling equipment; Pf (iv) Stirring the food in a container placed in an ice water bath; Pf (v) Using containers that facilitate heat transfer; Pf (vi) Adding ice as an ingredient; Pf or (vii) Other effective methods. Pf 2. When placed in cooling or cold holding equipment, food containers in which food is being cooled shall be: (i) Arranged in the equipment to provide maximum heat transfer through the container walls; and (ii) Loosely covered, or uncovered if protected from overhead contamination during the cooling period to facilitate heat transfer from the surface of the food.	Pico de gallo, roja, and verde in cooling without being on the cooling log and fully covered. Before we place an item in the walk-in cooler we should record the time and temperature. We place a top on the food AFTER the temperature is at least 41°F or lower.
11A Points	3

Score

Numeric	86
