Georgia Food Safety Training

JOB INFORMATION

Name of Establishment:	Rreal Tacos Chamblee_March 2026
	03-23-2026 12:58 PM
Trainer Name	Reese Jackson
Food Safety Manager:	Irving
Front of House Manager:	irving
Chef/Kitchen Manager on Duty:	Will
Item/Location/Temp	Barbacoa/ WiC/ 36°F
Item/Location/Temp	Adobe/ WIc/ 40.8°F
Item/Location/Temp	Beans/ Hot box/ 162.5°F
Item/Location/Temp	>>Chorizo/ Line cooler 1/ 46.7°F
Item/Location/Temp	>>Cole slaw/ line cooler 2/ 43°F (Processo de Enfrimente - con tapas)
Item/Location/Temp	Veggies/ line cooler 2/ 38°F
Item/Location/Temp	>>Pico de Gallo/ prep/ 53°F (Processo de Enfrimente - con tapas)
Item/Location/Temp	Salsa de chips/ prep/ 37°F

SITE CONDITIONS:

Cleanliness:	Clean
Overhead Dangers:	No Issues

EQUIPMENT INSPECTIONS:

Current Work Orders:	Check all coolers have been maintained recently, this is the time of year they tend to work the hardest and have issues. Add all the food to the cooling log after preparation if it is not at the correct temperature. Contact pest control to treat all drains to prevent the accumulation of fruit flies and gnats.
Fire Extinguishers:	Valid

CLOSING COMMENTS:

Photos:	

1 Supervision

1-2A PIC present, demonstrates knowledge, perform duties	In
1-2B Certified Food Safety Manager	In

2 Employee Health, Hygenic Practices, Preventing Contamination by Hands

Georgia Food Safety Training

2-1A Proper Use of Restrictions & Exclusions	In
2-1B Hands Clean and Properly Washed	In
2-1C No bare hand contact with ready-to-eat foods or approved alternate method properly followed	In
2-2AManagement Knowledge, responsibilities, reporting	In
2-2BProper eating, tasting, drinking, or tobacco use	In
2-2CNo discharge from the eyes, nose, or mouth	In
2-2D Adequate handwashing facilities supplied and accessible	In
2-2EResponse procedures for vomiting & diarrheal events	In

3 Approved Sources

3-1A Food Obtained from Approved Source	IN
3-1B Food Received at Proper Temperature	IN
3-1C Food in good condition, safe, and unadulterated	IN
3-1D Required records; Shellstock tags, parasites destruction	NA

4 Protection from Contamination

4-1A Food Separated and Protected	IN
4-1B Proper Disposition of Returned, previously served, reconditioned, and unsafe food	IN
4-2A Food stored covered	OUT
4-2A Violation Options	Packaged & Unpackages Food, food stored covered
Violation of GA State Food Code 511-6-1.04(4)(C) (iv) Except as specified under paragraph 2. of this subsection and when cooling as specified in DPH Rule 511-6-1-.04(6)(e)2.(ii), storing the food in packages, covered containers, or wrappings, except for loosely covered or uncovered containers in which food is being cooled if protected from overhead contamination	The cilantro dressing in the walk-in cooler was left uncovered from yesterday. The pork lard in the prep cooler was left uncovered from yesterday. Any food that is not in cooling should be fully covered to prevent contamination.
4-2A Points	4Points Deducted
4-2B Food Contact Surfaces; cleaned & sanitized	IN

Georgia Food Safety Training

5 Cooking and Reheating of TCS Foods, Consumer Advisory

5-1A Proper cooking time and temperatures	IN
5-1B Proper reheating procedures for hot holding	IN
5-2 Consumer advisory provided for raw and undercooked	IN

6 Holding of TCS Foods, Date Marking of TCS Foods

6-1A Proper Cold holding temperatures	OUT
6-1A Violation options	Time/Temperature Control for Safety; cold- holding
Violation of GA State Food Code 511-6-1.04(6) (f) Time/Temperature Control for Safety Food, Hot and Cold Holding. Except during preparation, cooking, or cooling, or when time is used as the public health control, time/temperature control for safety food shall be maintained at 41°F (5°C) or below or 135°F (57°C) or above, except that roasts cooked to a temperature and for a time specified in subsection (5)(a)2 of this Rule and reheated using the same temperature and time conditions as cooking may be held at a temperature of 130°F (54°C) or above.	The cole slaw and the chorizo were holding over 41°F in the line coolers. Check temperatures every four hours to confirm our units are working correctly.
Points	9Points Deducted
6-1B Proper hot holding temperature	IN
6-1C Proper cooling time and temperature	IN
6-1D Time as a public health control; procedures and records	IN
6-2 Proper date marking and disposition	IN

7 Highly Susceptible Populations

7-1 Pasteurized foods used; Prohibited foods not offered	IN

8 Chemicals

8-2A Food Additives; approved and properly used	IN
8-2B Toxic Substances properly identified, stored, used	OUT
8-2B Violation Options	Working container-common name

Georgia Food Safety Training

Violation of GA State Food Code GA 511-6-1.07(6) (b) Working Containers, Common Name. Working containers used for storing poisonous or toxic materials such as cleaners and sanitizers taken from bulk supplies shall be clearly and individually identified with the common name of the material.	Some chemicals were in the wrong container while others were missing a label.. Make sure we are training line cooks on chemical handling.
8-2B Points	4

9 Conformance with Approved Procedures

9-2 Compliance with Variance, Specialized process and HACCP plan	IN

11 Food Temperature Control

11A Proper cooling methods used; adequate equipment for temperature control	OUT
11A Violation Options	Cooling Methos
Violation of GA State Food Code 511-6-1.04(6) (e) Cooling Methods. 1. Cooling shall be accomplished in accordance with the time and temperature criteria specified under DPH Rule 511-6-1-.04(6)(d) by using one or more of the following methods depending on the type of food being cooled: (i) Placing the food in shallow pans; Pf (ii) Separating the food into smaller or thinner portions; Pf (iii) Using rapid cooling equipment; Pf (iv) Stirring the food in a container placed in an ice water bath; Pf (v) Using containers that facilitate heat transfer; Pf (vi) Adding ice as an ingredient; Pf or (vii) Other effective methods. Pf 2. When placed in cooling or cold holding equipment, food containers in which food is being cooled shall be: (i) Arranged in the equipment to provide maximum heat transfer through the container walls; and (ii) Loosely covered, or uncovered if protected from overhead contamination during the cooling period to facilitate heat transfer from the surface of the food.	The cole slaw and the pico in the line coolers were technically in cooling but there were fully covered.
11A Points	3

Score
